

Oak Hill Twilight Event

June 19, 2015

OK, so the format was screwed up and there was mud pretty much everywhere. You can't say you didn't have a good time. We started with 28 participants on the course by 6:30 and 28 participants returned by 8:30, which is a good thing. Thank you to Richard for running the registration table and to Holly Wilgus and Andreas Johansson for handling the starting/timing/ map duties.

The format was that participants would not see the first segment of the map before the start. At two other controls (#4 and #8) participants would pick up another segment of map. Some participants started at #1, while others started at #11. The area of the park used was deliberately kept small (about a half mile by about 3/8 of a mile, so that paths would cross and, in some areas, you would see more than one control at once. Since we normally don't get to see each other out on a course, the course designer thought he would bring everyone together.

The course designer wishes to apologize for control #11. It was a bit more wicked in there than I anticipated earlier in the spring. Also for the bobsled run on #3. I didn't figure it was going to rain for most of the month.

On to the results, which will be presented in a couple of formats. As all the participants know, there was a 90 minute time limit, so results will be for those under 90 minutes, those over 90 minutes, and overall without a time limit. Pick your poison. I will work on split times for individual controls for publication later. Individuals denoted with the letter A went through the course 1-11, while those with the letter B went 11-1.
