Landforms & Water Features

A depression is bowl shaped.

Contour lines connect points of equal elevation and differ by 2.5 meters on this map.

small depression

deep gully

marsh

This stream flows only during a rainy season.

A supplemental contour line is one half the normal interval. This one shows the top of a hill.

lake

This stream flows continuously.

shallow gully

Contour lines close together mean a steep slope.

A spur is nose shaped on the side of a hill.

small knoll

V or U shaped contour lines that line up indicate a lower place where water flows. Can you find two more?

Man made features

- ▢ small ruin
- ✕ object or sign
- ○ ground level object
- ✛ high tower
- ← culvert opening

stairs   bleachers

good trail with bridge
small unofficial trail
short fence
tall fence with gates
low wall
uncrossable wall

building   door inset   canopy

campus sidewalk, road and lots
main public road
campus boundary

Rock features

- · boulder ≤ 1m
- ● boulder > than 1m
- ⁙ many boulders

ballfield dirt

cliff

high side   low side

Vegetation

- garden or out-of-bounds
- mowed grass
- slow running woods
- open woods
- thick woods
- weeds and small trees
- weeds
- large tree
- small tree or bush
- large rootstock of fallen tree

mowed grass with small trees
