PURPLE PEN WORKFLOW

- 1. Create a new folder to store your design project. Give it an event name. Place your OCAD venue file in it.
- 2. Open Purple Pen. Select Create an existing event... Click OK
- 3. Name the event. Click Next
- 4. Click <u>Choose map file</u>. Navigate to the folder where the OCAD venue file is stored. Select the OCAD file and click <u>OPEN</u>. Click <u>Next</u> on the new screen.
- 5. Leave the map scale at the Default. Click Next
- 6. Leave the Paper Size settings alone. You can change them later if necessary. Click Next
- 7. Leave the "Event File Location" set to In the same folder as the map file. Click Next
- 8. Leave the Control Numbering alone so the first control will be 31. Click Next
- 9. Click Finish
- 10. Click and drag to move map around. To zoom, use mouse wheel or slider at window bottom.
- 11. One click <u>Add Start</u> from top menu bar. Mouse the Start icon into position and click. If you don't like where it is, click and drag it to a new position. Click on the fourth box in the clue sheet at the left. Select the correct feature. Add other descriptors if necessary.
- 12. Repeat this for <u>Add Finish</u>. Zoom in for precision.
- 13. One click Add Control and mouse the Control icon into position and click. Fill in clue description for that control.
- 14. When you are finished adding all controls, zoom out so you can see all of them.
- 15. Click <u>Add Course</u> in <u>Course menu</u>. Give the course a name (like Yellow or Score). Select either <u>Normal Course</u> or <u>Score</u> <u>Course</u> in the <u>Course type box</u>. You can add the Climb as a <u>number</u>. Text can be added (Must *check in at Finish*) (*90 minute time limit*). For WHITE and YELLOW, change <u>Description appearance</u> to <u>Symbols & Text</u>. For a Score course, change <u>Control</u> <u>circle labels</u> to <u>Control code</u>. Click <u>OK</u>
- 16. The controls have disappeared!!! Click <u>All Controls</u> in the View menu. The Start and Finish are already added to the clue sheet at left.
- 17. Click <u>Add Control</u> in the top menu. Mouse the circle over the desired first control. It will snap to it. <u>Click</u> to set the control. A shortcut for <u>Add Control</u> is the keystroke <u>Ctrl A</u>
- 18. Repeat until the course is complete.
- 19. For a Score Course, add the point values in column H.
- 20. Event menu/Customize appearance → White outline around numbers: change to 0.15 → Purple Color: deselect Use purple color from map change to Cyan 30, Magenta 100, Yellow 15
- 21. * How to move or delete a control for all courses that use it: Click the <u>All controls tab</u> at the top of the clue sheet. Click the desired control on the map and move it or delete it with the Delete Key.
- 22. * How to delete a control from a course without removing it from other courses: Click the desired course tab above the clue sheet. Click the control you want to delete on the map. Click the Delete Key. Click <u>NO</u> in the dialog box. The control will appear dimmed proving that it still exists for other courses.
- 23. * How to add a control from the All controls list somewhere in the middle of an existing course: If you would like to add a control between #4 and #5, click control 4 on the map. Click Add Control in the menu bar. Move the mouse to an existing dimmed control circle or click at an entirely new location, which creates a brand new control that will also appear on the All controls list. Be sure to add the clue symbols for this new control.
- 24. * To add a text line to the clue sheet: Click on the row near where you want the new line. Click Add text line in the Item menu. Type the text and select the <u>Position</u> and <u>Courses</u> options below the text box. Click <u>OK</u>.
- 25. *To add text to your map for ALL courses (*Don't scare the horses!*): Select <u>Add Special item</u> in the Item menu. Click <u>Text</u>. Type the text. Click <u>OK</u>. The + cursor appears. Move it to a good open place and click.
- 26. *To add the color level label automatically to each course, select <u>Add Special item</u> in the <u>Item</u> menu. Click <u>Text</u>. Don't type any text. Select <u>Course Name</u> in the <u>Insert Special Text</u> drop down box. Click <u>OK</u>. Move the + cursor to an open place and click. Each map will have its own title! The text boxes that appear can be resized by clicking and dragging the blue handles.
- 27. BE SURE TO SAVE.
